

NAUTICOMP LAUNCHES INFINITY II AND INFINITY PRO DISPLAY SCREENS

Marine Equipment Trade Show, 17th – 19th November 2009

Superyacht Pavilion Stand: 10.425

Nauticomp, one of the world's leading manufacturers of marine display screen equipment, is launching the Infinity II and Infinity PRO display screens at METS 2009. Combining cutting-edge display technology with an easy to use interface, the new Nauticomp Infinity II and Infinity PRO CCFL and LED display screens provide customers with high quality, reliable operation in an affordable, flexible and stylish package.

Infinity II

The technologically advanced Nauticomp Infinity II series incorporates an extensive range of easy to use features. Both Infinity II models can accommodate up to three sources, with picture in picture (PIP) mode enabling all to be displayed on the same screen simultaneously. The Infinity II series also includes Nauticomp's famous dim-to-red technology, providing exceptional night viewing. Furthermore, the unit's slim design enables users to install a larger display into a more confined area, which is ideal for yachts that may have space and weight restrictions.

The Infinity II™ is available in 15" or 19" CCFL or LED backlight models. Prices start from £2686.78 excluding VAT (UK RRP) for 15" CCFL display and £3275.99 excluding VAT (UK RRP) for 15" LED backlight display.

Infinity PRO

Housing the industry's largest screen in the smallest chassis frame, Nauticomp's Infinity PRO display screens have been designed to provide high quality and versatile solutions for a clean looking pilothouse. The Infinity Pro incorporates a multitude of features including dim-to-red, picture in picture (PIP) and scalable resolution for superior image. Furthermore, all functions can be easily accessed via the unit's compact external keypad which enables users to quickly switch between inputs as well as between auto and manual input selection.

The Infinity PRO is available in 15" and 19" LCD and LED backlight models. Prices start from £2928.36 excluding VAT (UK RRP) for 15" LCD and £3517.57 excluding VAT (UK RRP) for 15" LED backlight display.

Infinity II™ & Infinity PRO Summary of features

- Multiple inputs – DVI, VGA & Composite (Optional Extra)
- Sunlight readable – ready for all environments
- Bonded Glass – optically enhanced for clarity
- Picture in Picture – designed to display all inputs (Optional Extra)
- Waterproof – built to stringent IP67 standards
- Extended temperature range – longer life, more reliable
- Superior image – scalable resolution up to SXGA
