

**All Hooked Up, LLC of Jupiter, Florida is a full service marine electronics company. We specialize in sales, installation and service for vessels of all sizes both locally and internationally. With more than 15 years experience, we can create a functional design layout using state of the art equipment for any new factory boat. We also offer troubleshooting of existing systems and software upgrades on pre owned boats.**

**We offer these and other integrated systems:**

- **Audio Video – satellite TV and entertainment systems**
- **Navigation – GPS, radars, autopilots, AIS, sounders, weather instruments and night vision**
- **Communication – VHF's, single side bands, satellite phones, and fleet broadband systems**
- **IT Programming – computers, software, upgrades, networking internet satellite and Wi-Fi connections**

**All Hooked Up establishes peak performance of the equipment by offering one-on-one training, product tutorials, and sea trials. It is our commitment to maintain the highest level of industry standards in the field of electronics. Our success is built on the uncompromising attention to detail, quality and service provided to each and every client. Contact us today to allow us to enhance your boating experience.**
